

Preparing an Application for the ARC Programme 2024

All ARC applications must be submitted via the [IADT online form](#)

IADT operates a 'rolling' application deadline for postgraduate programmes and further info is available here: <https://iadt.ie/study/how-to-apply/application-deadlines/>

Applicants will need to provide the names and contact details of two referees, a CV, Transcripts of Results (and Certificates of English Language Competence, if relevant).

You will also be required to submit a 'portfolio'. Your Portfolio should be submitted as a PDF and must include a **Project Proposal** with the following elements:

- with a description of the concerns/ideas/materials/techniques you intend to explore in your project (approximately 500 words). You should indicate the project format most relevant to you. Do you want to make artworks, curate exhibitions/events, or write texts? If you're interested in other formats that's fine too – just let us know in your proposal
- Please include some references to examples of activities/research/work by others, either within or beyond the art field, relevant to your project (maximum 500 words).
- If your project involves the making of artworks, you must include images of your own previous artwork (5-10 examples). Please caption all images with title, date and medium. You can also include links to documentation of your video/audio/performance works on your website/vimeo/soundcloud/tumblr.
- If you wish to develop a specifically text-based project, please include samples of your previous writing (maximum 3,000 words) in your PDF

Please contact maeve.connolly@iadt.ie if you have any questions about developing a **Project Proposal for ARC**
